

ABOUT US

WHO IS TELEFLEX MEDICAL?

At Teleflex Medical, we're passionate about quality of life. That's why we are dedicated to enhancing patient outcomes by providing products that are less invasive, reduce infections and improve patient safety.

For years, customers worldwide have trusted our portfolio of brands to deliver quality, innovative solutions in the areas of critical care, respiratory care, anesthesia and surgical instruments and devices. Today, Teleflex Medical is a global supplier of medical devices with annual revenues exceeding \$1.4 billion. With over 11,000 employees in twenty-three countries, we are committed to understanding your needs and delivering solutions that exceed expectations. Our vision is to be your partner in good health, every step of the way.
